LOG BOO[illegible]

STEAMSHIP WILLIAM BAYLIES,

Wintering in Arctic Ocean, Mouth of the Mackenzie River, 1894–5.

THE

ANDREW SNOW, JR.

COLLECTION

THE CAPTAIN'S LAMENT.

The captain strode the quarter deck
As glum as he could be,
They'd taken all his Pommery Sec
And thrown it in the sea.
They'd lightered all his stock of wine
They'd jettisoned his rum;
And as he viewed the foaming brine
His fellows heard him hum:
"No more I'll see the yellow bear,
Or camels green and pink;
It's water, water everywhere,
But not a drop to drink."

The captain was a sturdy chap
Who'd sailed on many a ship,
And ere he went to take a nap
He used to take a sip.
And oft in weathering a storm
Or steering through a fog,
He took, to keep his body warm,
A steaming glass of grog.
But now he sings in deep despair;
"No more shall glasses clink;
It's water, water everywhere,
But not a drop to drink."

To him then came his orderly,
Enlisted thus to sail;
He said: "What will your order be,
Grape juice or ginger ale?
Or would a brady glass of pop
Go better with your lunch?"
The captain said: "If you don't stop.
At you I'll take a punch."
"I do not fear," said he, "my jaw,
You'd suffer if you did,
A punch is something that by law
You captains are forbid."

"Now blow my old topgallant stays,"
He answered with a sigh,
"Just like the navy nowadays,
Your wit is far too dry,
And yet I fear you'll have to walk
The plank along with me,
There's too much spirit in your talk,
My little orderly.
We sailor men must now beware
Of what we say or think;
It's water, water everywhere,
But not a drop to drink!"
